

NRA-ILA Voting Grades

The National Rifle Association does a great job providing its members information about candidates running for political office. This information is helpful in making an educated decision regarding a candidate's support (or lack of support) for our Second Amendment. This information is available at <https://www.nrapvf.org/grades/North-Dakota/>. If you would like information about another state, just go to the site and select the state of your choosing. Knowing this information can help you make the right decisions this November.
